I am an education researcher with over ten years' experience in project coordination and supervision, as well as data management, analysis, and reporting. I am happiest working at the intersection of K-12 education research and data management, helping researchers and practitioners obtain insights that improve student outcomes through harmonized, reliable, and documented data. I am also passionate about helping others organize their data and reporting through reproducible workflows.

Technical Skills

R, SPSS, Qualtrics, Stata, Microsoft Access, Quick Base, SQL, Git and GitHub, Tableau, SAS

Education _

University of Minnesota Minneapolis, MN

MASTER OF PUBLIC POLICY 2009-2011
